### Topics

- Valve leaning heavy into Steam Play - new beta update includes modified WINE/Proton for playing Windows-only games directly thru Steam client in Linux!
- Microsoft launches (US-only) Xbox All Access - 24 months of \$22-\$35 for Xbox One console, Game Pass, Live Gold subscription; slightly cheaper than buying all separately for 2 years
- Nintendo's much anticipated online cloud saves may not work for every game (<https://arstechnica.com/gaming/2018/09/turns-out-nintendos-promised-cloud-saves-on-switch-wont-work-for-every-game>) - and may disappear at any time if you cancel / don't renew your subscription
- Switch NES titles available to subscribers need to be “reactivated” online at least once every 7 days to keep working offline - please just go download ROMs instead, don't support this bullshit
- Valve adds (or surfaces hidden) Steam tag “Adults Only” to allow uncensored games back onto Steam; first 100% uncensored will be an erotic VN entitled *Neglige: Love Stories* (available as of today)

### Personal gaming

- Enter the Gungeon (AGnD, still in progress[?!])
- Thunder Cross II (Shmup Book Club / Sep)
- Blue Revolver (Shmup Book Club / Jul-Sep)
- Double Dragon II (marathon practice)
- Nuclear Throne (4P loop!)
- Legend of Zelda A Link to the Past (randos, open + triforce hunt)
- Assault Android Cactus (many IDs + speedrun practice)

### Ad-hoc design

- Superseded by marathon game reveal / schedule preview
